Operations Report:

- PetWhere, our shelter animal tracking software, is corrupted and not working. I have contacted PetPoint to get information about their software program. Currently, we have had to switch to tracking incoming/outgoing animals by paper records and spreadsheets.
- PetSmart adoptions: Adopted 1 cat during the Valentine's Weekend adoptathon at PetSmart on February 13th. Next adoption day at PetSmart is February 27th.
- In January, we found new homes for 33 cats and 11 dogs. Our shelter population is decreasing and becoming more manageable. We have been able to empty and put away some of the temporary cat cages that we had to set up last summer.
