Outreach Updates:

- Extreme Shelter Dog Makeover—we have not been able to get any local trainers interested in participating so we will hold this idea and the money raised and try to have it either sometime in the fall or next spring.

Miscellaneous:

- We have sent out the new stray animal numbers vs. contract fees worksheet to the municipalities for their review. This worksheet will be sent out quarterly and is designed to help the municipalities understand where they stand in both animal numbers being brought to the shelter from their areas and how this correlates with the amount of money it costs to care for these animals throughout the year. Many municipalities were probably taken by surprise both by the numbers of animals already received from their areas and how much “in the red” they actually would be at this time of year based on the actual costs for our services. Cheri has been asked by the town of Brigham to come to their next board meeting to discuss their numbers and will be available to any other municipality which would like to discuss the worksheet or contract items.
- Todd and Cheri have begun working on the 2011 stray animal contracts with the anticipation of having them out to the municipalities by the end of August in response to requests from the clerk/treasurers to have the contracts earlier in the year so that they are available when budget sessions begin.
